### Summary of reasons for decision:

The publication contains additional content for a game originally examined by the Classification Office (OFLC No. 1000554, registered 14 April 2010). This game was classified "Objectionable except if the availability of the publication is restricted to persons who have attained the age of 16 years", with the descriptive note "Contains violence, offensive language, drug use and sex scenes".

The new content provided within "Undead Nightmare" that is the subject of this classification

deals with matters of sex, horror, crime, cruelty, violence and highly offensive language in a similar manner to those in the original game. As such the additional content does not significantly alter the dominant effect of the publication as a whole. These components do not require the publication to be given a different classification to the original game.
